19 January 2018

Dear Parents/Guardians,

Outdoor Learning Experience at Singapore Science Centre in Jan/Feb 2018

As part of our continuing effort to provide authentic learning experiences to nurture our students to become Learners with Inquiring Minds, we have planned for our students to attend interesting hands-on workshops at the Singapore Science Centre. These workshops complement the school science curriculum and offer our students the opportunity to gain first-hand experiences on how scientists use the scientific method to make new discoveries.

The schedule for the respective P3, P4, P5 and P6 classes that are going in Term 1 is enclosed overleaf. We seek your understanding that the students will need to have their lunch in school so that we can depart from school promptly at 2.15pm. We would appreciate it if you could return the signed acknowledgement slip by next **Friday, 26th Jan 2018**. Thank you.

Yours sincerely,

Mrs Sharon Yang
Head of Department, Science
