

Notification : 30/P4/2018

12 February 2018

Dear Parents/Guardians,

Primary 4 Code-for-Fun Programme

As part of our school's continuing drive to innovate and provide a holistic education to prepare our pupils to be future-ready, we are offering the Code-for-Fun enrichment programme to all our P4 students.

The aim of the programme is to increase pupils' exposure to coding, computational thinking and problem solving skills. They will be learning to use a visual-based programming language together with micro:bits, a programmable micro controller to build a prototype of a self-watering system. Through the hands-on approach students will be able to see how they can use the skills and apply it to improve their everyday life.

The programme is fully funded by the school and there is no charge to the pupils.

The schedule for the programme is listed in the table below:

Date/day	Lesson	Time
05/03/2018 - Monday	Session 1 : Basic Micro:bit and makecode	2.15 p.m. to 4.30 p.m.
06/03/2018 - Tuesday	Session 2 : Micro:bit and project material	2.15 p.m. to 4.30 p.m.
07/03/2018 - Wednesday	Session 3 : Project work	2.15 p.m. to 4.30 p.m.
08/03/2018 - Thursday	Session 4 : Project work	2.15 p.m. to 4.30 p.m.

We highly recommend that your child/ward attend the full duration of the programme.

Kindly take note that there will be no transport arrangement for pupils who are taking school bus home for these 4 days. Please make the necessary transport arrangements for your child/ward to go home after school.

Yours faithfully,

Ms Cheong Hwee Khim
Principal
